Dear Ms. Stagg,

The Board of Trustees of Franklin Farm Foundation has reviewed the plans currently under consideration for building a fast-food restaurant at the Franklin Farm Village Center (on the former site of Video Warehouse). We are aware that this project will involve the construction of seven (7) additional parking spaces and will include an outdoor seating area for the restaurant. The Foundation has no objection to these plans.

Please feel free to contact me should you require any other information from the Foundation office in this matter.

Sincerely,

Jerome H. Schmitt
Executive Director
Franklin Farm Foundation
